SM Series Custom Shrouds are the perfect compliment to Digital Signage and Display/Video Monitor installations of any type. Prevents unwanted manipulation of device controls, and provides an aesthetic and architecturally pleasing finish to any installation.

For use in applications as diverse as Retail, Education, Airports, Board Rooms, Worship, Hospital and Health Care. Made for use with any existing Vesa mount system, MS Shrouds may be mounted vertically or horizontally. Finished in durable powder coat black or white matte, but custom colors are always available.

A & E SPECIFICATIONS

The Display Enclosure shall be an RCI Custom MS Sereis XXX. The unit shall be fabricated from (cold 14 Gauge rolled steel, or .125 5052 Aluminum). Finish shall be Tiger Drylac Powder Coat, (RAL9005 Black or RAL9003 White) Unit shall be provided with strapping bars designed for mounting on a standard Vesa Mount system unless otherwise specified.
