**FEATURES**

- 11 gauge steel temporary construction cover included
- Choose floor box (correct depth) and cover type for complete assembly
- Add convenient RCI wall plates for total package
- Mitered brass or aluminum carpet edging
- Total of 11 gang openings
- Stainless steel compression latches
- Lift-off full access door
- Leveling feet
- UL and CUL Listed
- Scrub water approved
- Installs well in carpet or tile and wood floors

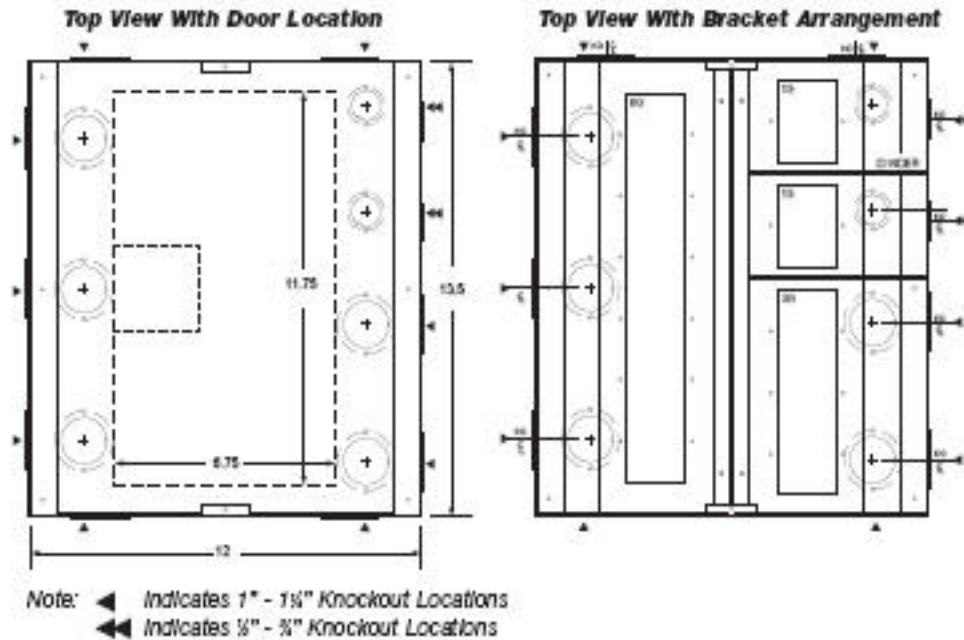

The FL600P Floor Box is designed for conference rooms, auditoriums, courtrooms, churches and all general meeting spaces with concrete floors covered with carpet, tile or wood floors. The assembly handles power, audio, video, telecommunications and data in one elegant and practical box.

The unit is not only UL and CUL Listed, but has also passed the latest UL test for scrub water for carpeted, tile and wooden floors. Internally, two angled brackets mount 2 single gang, 1 triple gang, and 1 six gang standard wall plates.

The lift-off section of the cover allows full access to internal connector plates and stored cables, and the smaller hinged access door flips back to allow cable exit. When not in use, the cover is completely closed allowing unencumbered travel in the area with only the hand-mitered, elegant carpet edge visible. This low profile edging is 1/4" high and is available in brass or aluminum.

**Floor Box Covers and Back Box Ordering Information**
