**FEATURES**

- Temporary construction cover included
- Choose floor box (correct depth) and cover type for complete assembly
- Add convenient RCI wall plates for total package
- Fold back cable exit
- Lift-off full access door
- UL and CUL Listed
- Installs well in carpet or tile and wood floors

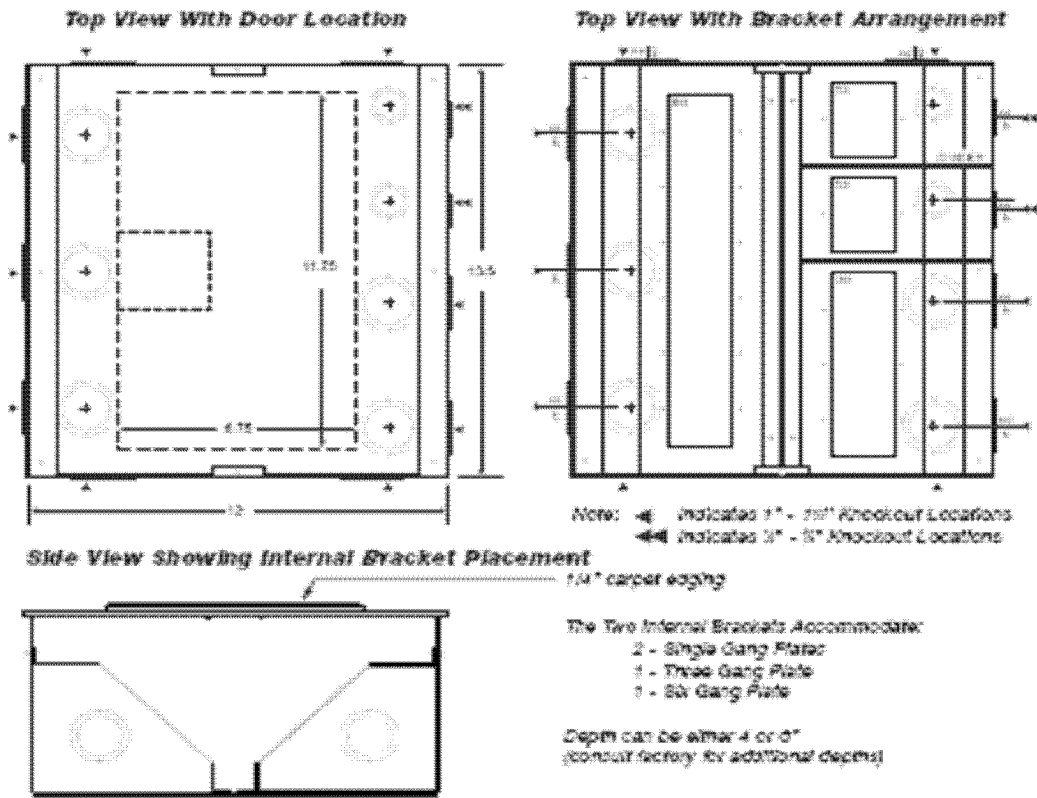

The FL640P Floor Box is designed for churches, auditoriums, conference rooms, boardrooms and all general meeting spaces with raised floors covered with carpet. The assembly handles power, audio, video, and data in one elegant and practical box. The unit is UL and CUL Listed.

The lift-off section of the cover allows full access to internal connector plates and stored cables, and the smaller hinged access door flips back to allow cable exit. When not in use, the cover is completely closed allowing unencumbered travel in the area with only the hand-mitered, elegant carpet edge visible. This low profile edging is 1/4" high and is available in brass or aluminum.

Inside the back box are two angled brackets which handle standard size plates – 2 single gang, 1 triple gang, and 1 six gang. All are isolated for maximum safety.

## Floor Box Covers and Back Box Ordering Information

Part Number	Description
