- Finish unit using RCI MI Series inserts
- Wall box can be mounted either vertically or horizontally
- Cylinder lock and keys included

The WB-3G-C and WB-4G-C Wall Boxes are designed to provide security for A/V connections in an attractive enclosure. The wall boxes are perfect for hotels, conference centers, churches, meeting rooms, airports and other public spaces where additional security is needed.

The wall boxes ship with all necessary hardware to install in both new and retrofit (old) construction. The units may be mounted either vertically or horizontally, permitting the door to swing from either side and top or bottom.

Units are available in either 3 gang or 4 gang versions and accept standard wall plates. Customize the wall plate by using RCI Custom Products online PanelBuilder design tool.

Each wall box includes a cylinder lock with keys and push-to-open retention latch.
