Exploded Modular Trim   Assembled Modular Trim
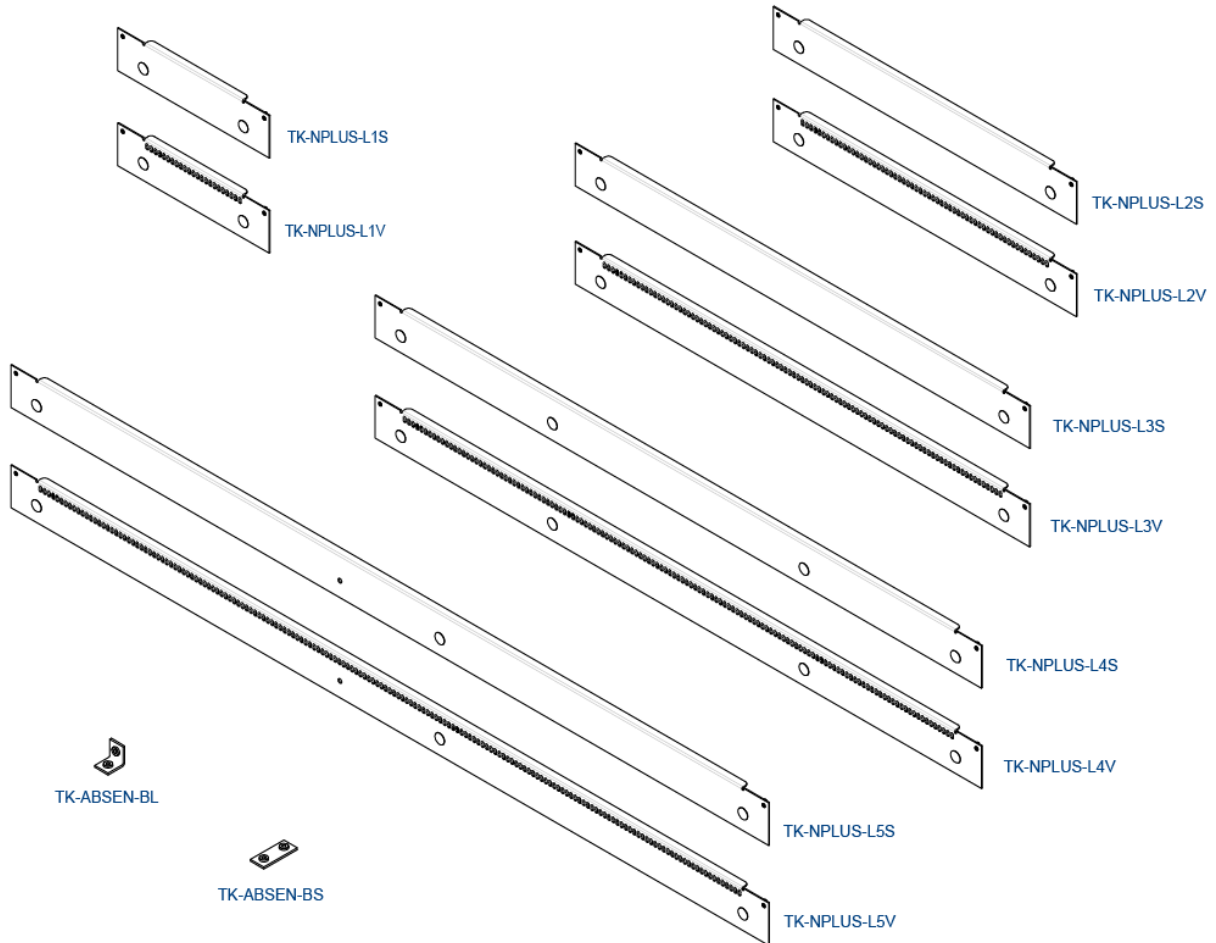

[LED Panels shown for reference only]

FEATURES

- Made from light weight .062 Aluminum
- Modular system supports most configurations
- Durable matte black powder coat finish
- Ventilation slots for top and bottom surfaces
- Mechanical attachment to monitor frame
- Splice plates and hardware provided
- Made in the USA

The RCI Custom Products **TK™-N+ Series** Trim Kit is an easily manageable modular system, designed to provide a simple yet visually appealing edge trim for common rectangular configurations of Absen N Plus tiled LED display walls. The **TK™-N+** provides a professional, finished look to any Absen Video Wall system, and helps to hide unsightly cabling and gaps associated with the install. Simply piece together the vertical and horizontal components necessary to surround your video display with the provided splice plates and screws. The perfect way to accentuate the most important part of your AV install!

A & E SPECIFICATIONS

The custom trim kit shall be an RCI Custom Products Model TK™ -NPLUS. Components shall be custom selected and assembled utilizing the necessary TK™ -NPLUS parts (BL, BS, L1S, L1V, L2S, L2V, L3S, L3V, L4S, L4V, L5S, L5V). The unit shall be fabricated from 0.062" Aluminum. Finish shall be durable Powder Coat Matte Black. Assembly hardware/tools for installation shall be provided.
